Footnotes

* Special tabulations from the NCVS Victimization Analysis Tool (NVAT).

* Detail may not sum to total due to rounding and/or missing data.

-- Estimate is equal to 0 sample cases.

! Interpret data with caution, based on 10 or fewer sample cases or the coefficient of variation is greater than 50%.

* Due to methodological changes in the 2006 NCVS, use caution when comparing 2006 criminal victimization estimates to other years. See Criminal Victimization, 2006 Technical Notes (BJS Web, NCJ 219413, December 2007), Criminal Victimization, 2007 (BJS Web, NCJ 224390, December 2008) for more information.
